## Genius Hour in 4/5/6

Over the past few weeks, the 4/5/6 learning area have had Genius Hour every week on Thursdays. What is Genius Hour? It's a time when the 4/5/6's work with adults who come to school and volunteer their time to teach us new skills like; engineering, cooking, martial arts and more. Every one in the class is doing a project with their genius volunteer. It's fantastic! **Nasma** 

Genius hour is a time where the 4/5/6's make projects about what they are passionate about. People are passionate about cooking, basketball, engineering, singing and many, many other things.

There will be an exhibition night soon where all of the 4/5/6 students will be presenting the wonderful projects that they have been working on this term **Najma** 

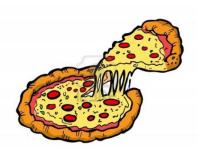

#### Pizza Making

Today Tim, Ayub and I engaged in a cooking experience where we made pizza together. We started off by washing our hands before making our pizzas. The ingredients are one packet of yeast, flour, olive oil, warm water, cheese, tomato paste, sugar and salt. We also used cookware such as a mixing bowl, spoon, measuring cup and tray. We would like to express special appreciation to Chef Jeremy our guest teacher who helped us make this possible. We really enjoyed this experience so much and we all did a fantastic job making pizza and they were delicious!

### Getting ready for the district Athletic sports

In mid August, in preparation for the upcoming district sports, the 4/5/6 children had an opportunity to join with Carlton Gardens Primary School for their whole school athletics day. It was such a great day, where Carlton Primary students were really positive, tried their hardest, were challenged and persisted as well as having many successes. Our 4/5/6 children were split across 5 different groups, which meant that they got to meet lots of other children from Carlton Gardens Primary School.
